

Enhance Your Nurse Call Deployment with RTLS

Get instant added value from your legacy nurse call deployments by incorporating Real-Time Location System (RTLS) presence technology. Easy implementation delivers significant improvements in workflow efficiency, bed-level presence awareness, continuous process improvement initiatives, and reporting.

RTLS Integration

Insights to Drive Your Continuous Improvement Initiatives

Empower nurse leaders with in-depth insight into workflows and staffing levels by floor or unit with integrated presence (staff location) data for enhanced nurse call analytics.

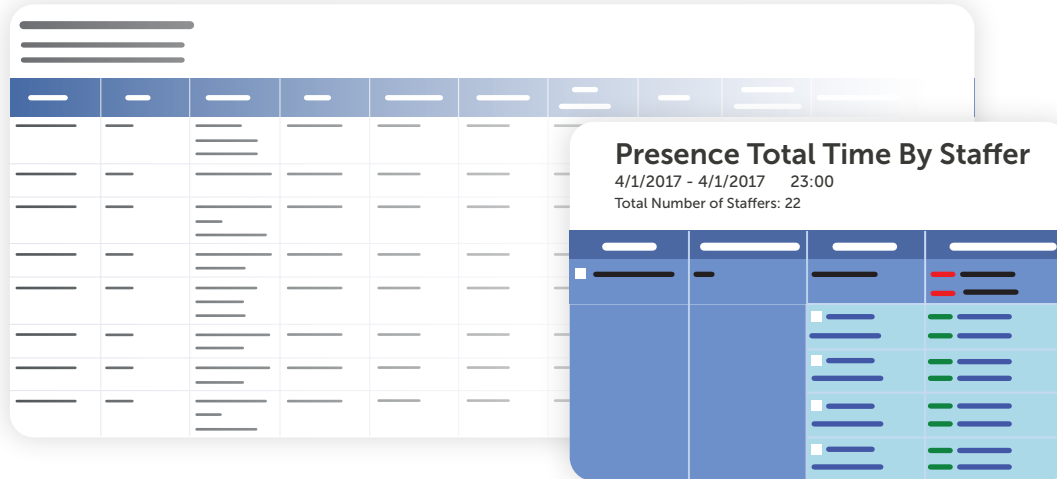

Native Integrations with Leading RTLS Technologies

Integrate with industry-leading RTLS manufacturers (Sonitor, STANLEY Healthcare (formerly AeroScout), CenTrak, and Midmark (formerly Versus) to enable more efficient workflow, room-level presence, and substantial reporting capabilities at a cost-effective price point.

Easier Alerting Options for Staff Duress

In the event care team members are in immediate need of assistance or are threatened, they can depress the programmable buttons on any manufacturer’s RTLS/RFID badges.

Empower Leadership with Actionable Insights

Nearest Staff Member Notification

Assign nurse call notifications based on proximity to a patient's room.

Contact Tracing

Visualize if staff have been exposed to patients confirmed/suspected to have Covid-19 (or vice versa).

Analytics for Bed-Level Presence & Staff Location

Provide performance data to leadership for improving operational efficiencies within their departments.

Patient Tracking

Conduct generalized tracking of patient movement as it relates to discharge, transfer, etc.

Rounding, Bedside Compliance, and Shift Handoff Reporting

Gain deeper insight into caregivers' ability to meet patient needs, leading to an improved patient experience.

Sentinel Event Reporting

Use reports to demonstrate staff compliance with protocols, responsiveness, etc. for adverse patient events.

Health System Benefits

- ✓ Real-time visibility into staff location, productivity
- ✓ Better insights into nurse call workflows
- ✓ Greater disease protection for staff, patients

About TigerConnect

As healthcare's most widely adopted collaboration platform, TigerConnect uniquely combines telehealth, patient texting, and clinical communications in a single, easy-to-use, cloud-based solution. Trusted by more than 7,000 healthcare organizations, TigerConnect maintains 99.99% verifiable uptime and nearly 5 billion user sessions each year.
